Recall #: R0217 | Parking Pawl Actuator Recall Date: 2022 May 18

Recall Description

Issue: On certain vehicles, the parking pawl could disengage for a short time just after the vehicle is parked and turned off. As a result, the vehicle could move suddenly if the parking brake isn't used. Safety Risk: A parked vehicle that moves suddenly could create the risk of an injury or a crash. Corrective Actions: Hyundai will notify owners by mail and instruct you to take your vehicle to a dealership to update the shifter control unit software. To reduce the safety risk, Hyundai recommends Owners use their Electric Park Brake when parking their vehicles.

This recall was open as of the date/time that this report was generated. For more information, or to find out if the recall has been closed, please contact HYUNDAI or visit [Hyundai's website](#).
