Zero Emission

WELCOME TO THE 2018 NISSAN LEAF DIGITAL BROCHURE

Full of images, feature stories, and all the specification and trim level information you need to help select your Nissan LEAF.

NISSAN INTELLIGENT MOBILITY

Nissan Intelligent Mobility guides everything we do. We're using new technologies to transform cars from mere driving machines into partners. Together the journey is more confident, connected, and exciting. Whether it's cars that share the task of driving with you, or highways that charge your EV as you go along, it's all in the very near future. And it's a future already taking shape in the Nissan you drive today.

The New Nissan LEAF®

SIMPLY AMAZING

A powerful step forward for the world's best-selling electric vehicle. Get ready for a whole new way to drive, where the everyday is exhilarating. Feel more confident, excited, and connected – wherever you go. All in a car that does simple things amazingly.¹

Nissan LEAF® SL shown in Two-tone Pearl White/Super Black. U.S. model shown.

Slice through the air to greater efficiency

Bold looks are only the beginning. With an advanced aerodynamic design that allows Nissan LEAF to slice instead of smash through the air, you get an impressively efficient ride, not to mention an unbelievably quiet one. Did you hear that? Neither did we.

Launch in a flash **100%** instant torque

It's a rush you never saw coming. Nissan LEAF's 100% electric drivetrain delivers instant acceleration as soon as you touch the pedal. Turn the wheel, and the fun continues, with a low centre of gravity that lets you hug the road.

Go even farther **40%** more range

More than just a daily commuter, the new Nissan LEAF® gives you the freedom to go farther than ever before. A new 40 kWh battery takes your average range to 242 km (151 miles), a 40% increase from the prior Nissan LEAF generation, so you can go places you never thought you could.²

LOW CENTRE OF GRAVITY

With a battery pack that sits low in the chassis, Nissan LEAF takes on curves with ease and brings fun-to-drive handling that makes corners as enjoyable as the straightaways.

Keeps you centred even in the curves

Maintains your preset speed and distance

Can even come to a complete stop

Feel free to enjoy the ride

With **ProPILOT Assist**, Nissan LEAF® helps out with daily driving – following the car ahead at a preset distance or helping keep you centred in your lane. It can even bring your Nissan LEAF to a full stop based on the traffic flow, and can bring you back up to speed when traffic starts moving again.^{3,4}

ProPILOT Assist

U.S. instrumentation shown.

Nissan Intelligent Mobility surrounds you in confidence

You're only human – it's nice to have a little backup when something unexpected happens. The new Nissan LEAF offers a suite of available Nissan Intelligent Mobility features that can step in and take action to help keep you out of trouble.⁸

GET AN ASSIST WHEN YOU NEED IT

Intelligent Emergency Braking with Pedestrian Detection

Monitors your speed and distance between you and the car ahead, and can let you know if you need to slow down. It can even automatically engage the brakes to help avoid a frontal collision or lessen the severity of an impact. And when it detects a pedestrian in the crosswalk, it can stop you in your tracks.^{3,9}

Intelligent Lane Intervention

Helps keep you in your lane. When lane markings are clear, it detects if you're straying out of your lane and taps the brakes to help gently guide you back.^{3,10}

SEE AND SENSE MORE AROUND YOU

Intelligent Around View® Monitor

See more around you with a virtual composite 360° bird's-eye view of your Nissan LEAF. With the push of a button, you can select split-screen close-ups of the front, rear, and curbside views. You'll slide into the tightest spaces and make it look easy, without having to worry about scuffing your wheels.^{3,5}

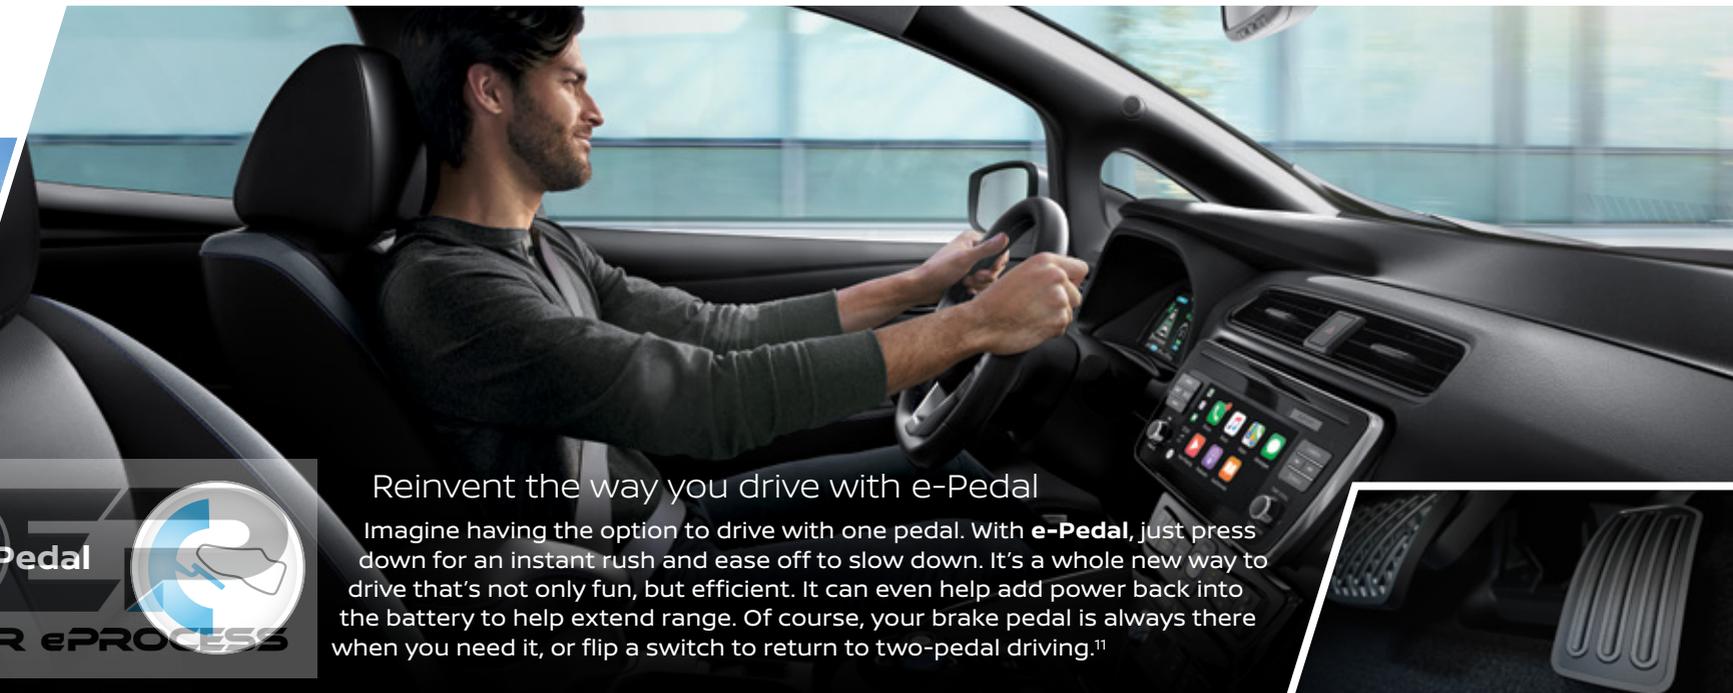

Rear Cross Traffic Alert

Helps you back out of a space with more confidence. It watches around the rear of your Nissan LEAF, and can warn you about cars it detects creeping up on you from either side.^{3,6}

Blind Spot Warning

Helps you change lanes with confidence. It keeps an eye on the blind spot area and gives you a heads-up if it detects a vehicle hiding there.^{3,7}

Reinvent the way you drive with e-Pedal

Imagine having the option to drive with one pedal. With **e-Pedal**, just press down for an instant rush and ease off to slow down. It's a whole new way to drive that's not only fun, but efficient. It can even help add power back into the battery to help extend range. Of course, your brake pedal is always there when you need it, or flip a switch to return to two-pedal driving.¹¹

Charge up at home

With an innovative charging system, it's never been easier or quicker to get moving. And with a newly enhanced app that gives you access to your vehicle, getting a head start is just a tap away.

FAST HOME CHARGING

1 HOUR CHARGING = 35 KM (22 MILES) OF RANGE¹²
8 HOURS CHARGING = FULL CHARGE

- Portable charger comes standard with every Nissan LEAF^{®13}
- Plug directly into 240-V wall outlet for a Level 2 charge – no charging box required¹³
- A safe, quick charge is just one of the benefits of 6.6 kW charging¹³

The NissanConnectSM EV App keeps you informed and gives you remote access through your compatible smartphone.¹⁴

You can save money by charging your Nissan LEAF at off-peak hours remotely, bringing the cabin to the perfect temperature before you even get in, and checking the battery charge – all from your phone.¹⁴

Charge up on the go

With a large network of reliable public charging stations, and more popping up all the time, you'll never be far from your next charge, or even a very quick top-off. Add advanced charging applications built right into Nissan LEAF, and it's never been easier to keep driving with confidence.¹⁶

NISSAN INTELLIGENT MOBILITY

FAST – PUBLIC 240-V CHARGING¹⁶

1 HOUR CHARGING = 35 KM (22 MILES) OF RANGE¹²
8 HOURS CHARGING = FULL CHARGE

- Top off at one of thousands of stations nationwide
- Charging prices may vary per station

FASTEST – PUBLIC DC QUICK CHARGING¹⁶

30 MINUTE CHARGE = 142 KM (88 MILES) OF RANGE¹²
FASTEST RATE AVAILABLE

- Up to 80% charge in 40 minutes
- DC Quick Charging prices may vary per station

FILTER FOR A PERFECT MATCH

Using Nissan LEAF's Zero Emissions menu on the centre display, you can filter for the type of charger you are looking for, type of payment method you want to use, and more.¹⁶

NEW INNOVATIVE BATTERY

Nissan LEAF's battery pack has been developed in-house, rigorously tested, and has an extraordinary record of reliability, meaning you can feel confident you are driving the best battery technology around.

A DAY IN THE LIFE OF NISSAN LEAF

0 km

Wake up fully charged and start off in comfort with remote climate control (a great way to help extend range). Nissan LEAF is ready. Let's go!^{3,14}

23 km

Take the easy way to work. Activate ProPILOT Assist to enjoy a more relaxing morning commute.^{3,4}

28 km

Get there faster with single-occupancy access to the carpool lane. Your reward for driving electric (select provinces only).¹⁵

33 km

Go into town for lunch and plug into a Quick Charger for a top-off, if you'd like. Enjoy an 80% charge in 40 minutes. Just enough time to say "Cheque, please!"¹⁶

61 km

Grab some groceries for tonight's dinner. You can find somewhere local with a charger on the Zero Emissions menu, but with 242 km (151-mile) range, you really don't need to.^{3,12,14}

70 km

Check how efficiently you've been driving on the new customizable digital display. Or get directions, charge times, and more.^{12,14,17}

84 km

Just another day of driving electric. No gas, no emissions.¹⁸ Once you're home, start an overnight charge on the NissanConnect EV App.^{3,14}

Grab hold of a driver-centric design

It's all around you. Bold lines, distinctive touches, and the sense that this is a vehicle like no other. LEAF's driver-centric environment proves you don't have to sacrifice comfort or convenience when driving electric. With features like a D-shaped steering wheel, distinctive centre console, and a "floating" touch-screen that puts your phone on centre stage,³ it's clear this interior was designed with you in mind.

Audio Information

SEATS DOWN²¹

SEATS UP²¹

60/40 SPLIT²¹

A cabin so quiet you can experience comfort at the perfect decibel

With comfortable leather-appointed seats for all,³ impressive sound-dampening, and the Bose® Energy Efficient Series Premium Audio System,³ enjoy the perfect environment to hear yourself think or pump your favourite music at your preferred volume. Bose® engineers created an audio system with seven lightweight, strategically placed speakers that saves power, without sacrificing sound quality. All so you can rock out more efficiently. And with flexible cargo space, you've got room to do more. With all seats up, you've got seating for five and room for plenty of luggage. All seats down allows you to bring a full bike, and then some, for those weekend excursions. And drop down one of the rear seats for the perfect mix of cargo and seating.²¹

100% ELECTRIC NISSAN LEAF FAQs

Does the Nissan LEAF use gasoline?

No, never. Nissan LEAF runs off of 100% electric battery power, no gas needed. In fact, it doesn't even have a tailpipe.

Will the price include the battery pack? Or will there be an option to rent/lease the battery pack?

The total cost of the vehicle includes the battery pack. Both lease and purchase options are available for the vehicle, but not for just the battery pack.

Can I charge if I'm not at home?

Yes. Across the country you'll find a public infrastructure of charging stations. Visit chargehub.com or download the app to find a station near you.¹⁶

Will there be more public charging stations in the future?

The public charging network is expanding every day, with over 5100 access stations in place. For a faster charge, DC quick-charging stations are capable of giving you an 80% charge in just 40 minutes.¹⁶

Am I required to buy the home charging station when I purchase my Nissan LEAF?

You can charge your Nissan LEAF at home with the portable 120-V/240-V charging cable. However, the home charging dock is recommended and more adapted to a daily usage.

How long will it take to charge my Nissan LEAF at home?

With the 240-V home charging dock or 120-V/240-V portable charge cable, your 2018 Nissan LEAF will be fully charged in as little as 8 hours.²⁹

visit nissan.ca/leaf

Will charging my Nissan LEAF increase my electricity bill?

The average driver should see only a moderate bump in their monthly electricity bill – and if you charge during off-peak hours, even less – though the savings in gas money should more than make up for it.

Can I drive my Nissan LEAF on the highway?

Of course! Nissan LEAF is highway-ready, with instant torque and highway-capable speeds. Even better, Nissan LEAF qualifies for a single-occupancy HOV access in select provinces, so you can use the carpool lane any time you want.¹⁵

What happens if I run out of charge?

Nissan LEAF comes with helpful tools that keep you aware of your battery level at all times. However, for added peace of mind, every Nissan LEAF comes with three years of complimentary roadside assistance.¹⁴

Does the battery come with a warranty?

Yes, Nissan LEAF's advanced battery is protected against capacity loss below 9 bars of capacity (out of 12) for 8 years/160,000 kilometres (whichever occurs first).³⁰

Does Nissan LEAF have the same safety features as a conventional car?

Yes. Nissan LEAF comes with a suite of new Nissan Intelligent Mobility technologies. You can enjoy standard Intelligent Emergency Braking²⁶ and other features like Blind Spot Warning^{3,7} and Intelligent Lane Intervention.^{3,10}

Nissan's environmental action plan focuses on several key areas. In addition to increasing production of Zero Emission vehicles like the 100% electric LEAF®, we're improving fuel efficiency across our lineup, and reducing the environmental impact of manufacturing through energy-efficient practices in our plants.

¹Best-selling 100% electric car in history, with global sales of over 300,000 units 2010-2018. ²2018 range of up to 242 kilometres. Actual range may vary. Use for comparison only. ³Available feature. ⁴It is the driver's responsibility to remain alert with hands on steering wheel, keeping a look out for other vehicles and pedestrians at all times. ⁵IAVM cannot completely eliminate blind spots and may not detect every object. IAVM operates at vehicle speeds below 8 km/h. Always check surroundings and turn to look behind you before moving vehicle. ⁶RCTA is not a substitute for proper backing procedures. May not detect all moving vehicles. Speed and other limitations apply. See Owner's Manual for details. ⁷Blind Spot Warning is not a substitute for proper lane change procedures. The system will not prevent contact with other vehicles or accidents. It may not detect every vehicle or object around you. ⁸Availability of features varies by model year, model, trim, and package. ⁹IEB with Pedestrian Detection is not a replacement for responsible driving. May not provide warning or braking in certain conditions. Speed and other limitations apply. See Owner's Manual for details. ¹⁰LI will not detect every object, and speed limitations apply. Always check surroundings and turn to look behind you before moving vehicle. See Owner's Manual for details. ¹¹Use conventional brake pedal for more aggressive braking situations. ¹²Mileage estimates may vary. Range will vary depending upon driving/charging habits, speed, conditions, weather, temperature, and battery age. ¹³Please review the Electric Vehicle Supply Equipment (EVSE) Quick Reference Guide located in the bag of the portable charger. The EVSE draws a constant 12 A at AC 120 V 60 Hz or 30 A at AC 240 V 60 Hz. You must ensure that the outlet and household wiring used for charging are rated at this level and comply with the latest electrical wiring standards and regulations in your country or area. The EVSE must be used on a dedicated circuit installed by a qualified electrician. ¹⁴Available services/features may be shown. Compatible connected device may be required. Only use services/features and device when safe and legal to do so. Subject to GPS and wireless network availability and connection, and system/technology limitations. Text rates/data usage/subscription may apply. Some services/features provided by companies not within Nissan or its partners' or agents' control and may be discontinued at any time. **For more information, see Dealer or Owner's Manual.** ¹⁵HOV access varies by province. Please consult provincial laws for eligibility. ¹⁶Availability/accessibility of charging stations is not guaranteed. ¹⁷Never program while driving. GPS mapping may not be detailed in all areas or reflect current road status. ¹⁸For tailpipe emissions. ¹⁹Driving is serious business and requires your full attention. If you have to use the connected device while driving, exercise extreme caution at all times so full attention may be given to vehicle operation. External device not included. ²⁰ICC is not a collision avoidance system or warning device. Designed to use limited braking. Failure to apply the brakes could result in an accident. ²¹Cargo and load capacity limited by weight and distribution. Always secure all cargo. Cargo shown for display purposes only. ²²Extra cost option. ²³See your Nissan Dealership and read the actual limited warranty. ²⁴Intelligent Trace Control cannot prevent accidents or loss of control. It is the driver's responsibility to be in control of the vehicle at all times. ²⁵Use the Text Messaging feature after stopping your vehicle in a safe location. If you have to use the feature while driving, exercise extreme caution at all times so full attention may be given to vehicle operation. Compatible smartphone required. Text rates and/or data usage may apply. ²⁶IEB cannot prevent accidents due to carelessness or dangerous driving techniques. It may not provide warning or braking in certain conditions. Speed limitations apply. ²⁷It is the driver's responsibility to remain alert at all times. IDA is only a warning to inform the driver of a potential lack of attention or drowsiness. It does not detect and provide an alert in every situation. See Owner's Manual for details. ²⁸Your Annual Gas Savings is the result of Daily Savings multiplied by the number of days in the month (30) and the number of months per year (12). Daily Savings is the Nissan LEAF[®] Daily Cost (km/miles driven daily/Nissan LEAF[®] MPG, multiplied by MPGe) subtracted from Daily Cost (km/miles driven daily/MPG, multiplied by the national average of the cost of gas). Your actual gas savings will vary due to a number of factors, including driving conditions, vehicle maintenance, gas prices in your specific geographic location, and changes in energy costs. ²⁹Approximate time with available 240-V home charging dock, purchased separately. ³⁰The limited Nissan LEAF[®] lithium-ion battery warranty includes coverage for defects in materials or workmanship for 8 years/160,000 kilometres (whichever occurs first) as well as protection against capacity loss below 9 bars of capacity (out of 12) as shown on the LEAF[®]'s capacity gauge for a period of 8 years/160,000 kilometres. For complete information concerning coverage, conditions and exclusions, see your Nissan dealer and read the actual New Vehicle Limited Warranty booklet. ³¹Brake Assist is only an aid to assist the driver and is not a collision warning or avoidance device. It is the driver's responsibility to be in control of the vehicle at all times. ³²Parking aid/convenience feature. Cannot completely eliminate blind spots. May not detect every object and does not warn of moving objects. Always check surroundings and turn to look behind you before moving vehicle. ³³Airbags are only a supplemental restraint system; always wear your seat belt. Even with the occupant-classification sensor, rear-facing child restraints should not be placed in the front-passenger's seat. Also, in addition to any other requirement of applicable law, all children 12 and under should ride in the rear seat properly secured in child restraints, booster seats, or seat belts according to their size. Airbags will only inflate in certain accidents; see your Owner's Manual for more details. ³⁴VDC, which should remain on when driving except when freeing the vehicle from mud or snow, cannot prevent accidents due to abrupt steering, carelessness, or dangerous driving techniques. ³⁵TPMS is not a substitute for regular tire pressure checks. ³⁶Vehicle must be on for the Easy-Fill Tire Alert to operate. ³⁷2018 EPA Fuel Economy Estimates. Based on Natural Resources Canada formula of 8.9 kW/hour equal to one litre of gasoline energy, EPA rated the Nissan LEAF[®] equivalent to 1.9 Le/100 km (149 MPGe) measured as gasoline fuel efficiency in city driving and 2.4 Le/100 km (119 MPGe) in highway driving. Actual mileage may vary with driving conditions – use for comparison only. Android AutoTM is a trademark of Google, Inc. Apple CarPlayTM is a trademark of Apple, Inc.
