

BOLT EV 2020

CHEVROLET 

Bolt EV Premier in Cajun Red Tintcoat
(extra-cost colour) with available features.

A GREAT VEHICLE THAT JUST HAPPENS TO BE ELECTRIC.

Bolt EV is the award-winning vehicle that does everything well. It includes an estimated range of up to 417 kilometres on a full charge!¹ It can accelerate from 0–96 km/h in 6.5 seconds.² And with a low centre of gravity, Bolt EV is just plain fun to drive. There's plenty of room for five and up to 1603 L (56.6 cu. ft.) of maximum cargo room with the rear seats folded down.³ So go ahead. Simplify your life. After all, charging the battery can be as easy as plugging in a cellphone.

FIND NEW ROADS™

¹ 2020 Bolt EV fuel consumption estimates based on GM testing in accordance with Government of Canada approved test methods. Refer to vehicles.nrcan.gc.ca for details. Your actual range will vary based on several factors, including temperature, terrain, battery age and how you use and maintain your vehicle. ² Based on initial vehicle movement. ³ Cargo and load capacity limited by weight and distribution.

Bolt EV Premier in Silver Ice Metallic
with available features.

PERFORMANCE

UP TO
417 ESTIMATED KILOMETRES OF
RANGE ON A FULL CHARGE¹

6.5 SECONDS 0-96 KM/H²

266 LB.-FT. OF TORQUE

Bolt EV offers an estimated range up to 417 kilometres on a full charge,¹ which can mean five times the amount needed if your average daily commute is 80 kilometres round trip – enough for a full work week and a few stops in between.

With smooth handling and plenty of get-up-and-go, Bolt EV is fun to drive

and requires less maintenance than a gas vehicle. Features like Regen on Demand™ and One Pedal Driving are engineered to help improve efficiency.

Regen on Demand allows you to convert kinetic energy into energy stored within the battery for future use. A simple pull and hold of the Regen on Demand

paddle can decelerate your Bolt EV and store energy.³

While driving in Low mode at any speed, **One Pedal Driving** lets you efficiently speed up and slow down by using only the accelerator pedal.³ When you want to speed up, press your foot down like you normally would. And when you want

to slow down, just lift your foot off the accelerator. One Pedal Driving helps you capture some of the energy from the moving vehicle and turns it back into electrical energy, which is then stored in the battery. Of course, you should always use your brake pedal if you need to stop quickly.

¹ 2020 Bolt EV fuel consumption estimates based on GM testing in accordance with Government of Canada approved test methods. Refer to vehicles.nrcan.gc.ca for details. Your actual range will vary based on several factors, including temperature, terrain, battery age and how you use and maintain your vehicle. ² Based on initial vehicle movement. ³ Regenerative braking performance may be limited when the battery is cold or near full charge. See chevrolet.ca for details.

BASIC

120-VOLT

Home & Public Stations

Up to

6.4 KILOMETRES

of range per hour of charge^{1,2}

CHARGE

120-volt charging capability comes standard.

120-volt portable charge cord comes standard with the vehicle.

BENEFITS

Gives owners the opportunity to top off their charge.

Charge anywhere there's a 120-volt 3-prong outlet.

FAST

240-VOLT

Home & Public Stations

Up to

40 KILOMETRES

of range per hour of charge^{1,3}

CHARGE

240-volt charging capability comes standard.

240-volt charging is available at most public charging stations.

The recommended 240-volt charging unit (professional installation required) is available for purchase through your Chevrolet dealer or GM Accessories.

BENEFITS

A convenient way to charge at home.

Easily top off your charge at any time.

From empty, fully replenish the battery in about 10 hours with the 32-amp 7.2 kW charger unit!

SUPER FAST

DC FAST CHARGE

150 amps or more output

Public Stations Only

Up to

160 KILOMETRES

of range in about 30 minutes of charge^{1,4}

CHARGE

DC Fast Charge capability and required port are standard on Bolt EV.

BENEFITS

Accelerated charging times.

Convenient for those who are out and about and need to add to their charge while parked.

CHARGING

GOODBYE, GAS STATION.

Charging your Bolt EV is simple. The vehicle comes standard with 240-volt charging capability, and with the available 240-volt charging unit (professional installation required), you can charge your Bolt EV up to five times faster than with the 120-volt portable charge cord¹

The 8-in. diagonal Driver Information Centre and **10.2-in. diagonal colour touch-screen** show range information. You can also find range information on the available myChevrolet[®] App²

A DC Fast Charging provision is standard on Bolt EV. **DC Fast Charging** is available at conveniently located public charging stations and provides up to 160 kilometres of range in about 30 minutes of charge¹. Use the myChevrolet App² with the Energy Assist feature to easily plan trips and find available charging stations in your area.

Every new Bolt EV comes standard with an 8-year/160,000 km³ propulsion battery and electric drive Component Warranty. Plus the Bolt EV battery is engineered with an active thermal management system, which helps regulate and protect the battery regardless of the outside temperature.

¹ Charging rate varies based on output of the charge unit, vehicle settings and outside temperature. ² Available on select Apple and Android devices. Service availability, features and functionality are subject to limitations and vary by model and/or vehicle configuration, device and the plan in which you are enrolled. Device data connection required. Visit onstar.ca for more details. ³ Whichever comes first. Conditions apply. See Warranty Booklet for details.

Bolt EV Premier
in Summit White.

DESIGN

- Daytime running lamps with LED signature.
- Michelin® Energy® Saver all-season† tires with Selfseal® technology.
- Enclosed underbody to streamline airflow.
- Electronic Precision Shift.
- Spacious comfort for five passengers.

† All-season tires may not satisfy winter tire requirements in all regions of the country. Tires specifically designed for severe winter conditions and marked with the “winter tire” symbol ❄️ may be required during certain months or in certain regions. Contact your Provincial, Municipal or local road authority for information regarding which tires are required in your particular area.

Rear seats fold down to offer up to 1603 L (56.6 cu. ft.) of cargo space!

The rear cargo area features a deep well with a false floor for additional storage. Standard on Premier and available on LT.

Bolt EV Premier interior in Dark Galvanized/Sky Cool Grey with perforated leather-appointed seats.

TECHNOLOGY

- myChevrolet App¹ includes 5 years of EV Mobile Commands, including Remote Key Fob services²
- Built-in 4G LTE Wi-Fi[®] Hotspot³ (data plan required) provides a fast and reliable connection for up to seven devices.
- Apple CarPlay^{®4} compatibility.
- Android Auto^{™5} compatibility.

¹ Available on select Apple and Android devices. Service availability, features and functionality are subject to limitations and vary by model and/or vehicle configuration, device and the plan in which you are enrolled. Device data connection required. Visit onstar.ca for more details. ² Services are subject to user terms and limitations and vary by vehicle model. Remote start requires GM factory-installed and enabled remote start system. Visit onstar.ca for more details. ³ Visit onstar.ca for vehicle availability, coverage maps, details and system limitations. Services and connectivity vary by model and/or vehicle configuration and conditions as well as geographical and technical restrictions. 4G LTE service available in select markets. Requires active connected vehicle services and a data plan to access the vehicle's built-in Wi-Fi Hotspot. Accessory Power must be active to use the Wi-Fi Hotspot. Data plans provided by AT&T or its local service provider. Credit card is required for purchase. ⁴ Vehicle user interface is a product of Apple and its terms and privacy statements apply. Requires compatible iPhone and data plan rates apply. ⁵ Vehicle user interface is a product of Google and its terms and privacy statements apply. Requires the Android Auto app on Google Play and an Android compatible smartphone running Android 5.0 or higher. Data plan rates apply.

myChevrolet App¹ with Energy Assist feature to easily plan trips and find charging stations on the go.

Confidence Gauge continuously analyzes available range based on current vehicle conditions and climate settings.

Range Impact screen.

¹ Available on select Apple and Android devices. Service availability, features and functionality are subject to limitations and vary by model and/or vehicle configuration, device and the plan in which you are enrolled. Device data connection required. Visit onstar.ca for more details.

SAFETY AND DRIVER ASSISTANCE

READY AND VIGILANT.

Front Pedestrian Braking. At speeds below 80 km/h, if an imminent collision with a pedestrian directly ahead is detected, the feature can alert you and can even apply last-second emergency braking. Performance is limited at night. Available on LT and Premier.

Automatic Emergency Braking. At speeds below 80 km/h, if an imminent front-end collision is detected with a vehicle you are following, the feature can alert you and can automatically apply hard emergency braking or enhance driver hard braking. Available on LT and Premier.

Forward Collision Alert. This feature monitors how close your vehicle is to the detected vehicle in front of you and can alert you to a potential crash. Available on LT and Premier.

IntelliBeam® headlamps. When oncoming headlamps are sensed or when tail lamps are detected, this feature intuitively adjusts between low and high beams. Available on LT and Premier.

Lane Keep Assist with Lane Departure Warning. At speeds above 60 km/h, this feature monitors road lines when identifiable and can gently turn the steering wheel to help keep the vehicle in its lane or provide an alert if a lane marker is unintentionally crossed. Available on LT and Premier.

Lane Change Alert with Side Blind Zone Alert. This feature can provide side mirror alerts when it detects fast-approaching vehicles in adjacent lanes as well as moving vehicles in the side mirror blind zones. Standard on Premier. Available on LT.

HD Rear Vision Camera. When travelling in Reverse at low speeds, this feature helps provide a view of the area immediately behind your Bolt EV. Standard on LT and Premier.

HD Surround Vision. When your Bolt EV is stationary or travelling at low speeds, this feature provides you with a bird's-eye view of the area around the vehicle on the infotainment display. Standard on Premier.

Rear Park Assist. When travelling in Reverse at low speeds, this feature can provide distance alerts when it detects certain stationary objects in close proximity behind the vehicle. Standard on Premier. Available on LT.

Rear Cross Traffic Alert. This feature can alert you to detected vehicles crossing behind your Bolt EV when backing up. Standard on Premier. Available on LT.

Rear Camera Mirror. This feature allows you to use either a traditional interior rear-view mirror or a rear-view camera mirror display that provides a wide, less obstructed field of view to check for traffic. Standard on Premier.

Safety starts with you. Safety or driver assistance features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Visibility, weather and road conditions may affect feature performance. Read the vehicle Owner's Manual for more important feature limitations and information.

1 A NOTE ON CHILD SAFETY: Always use seat belts and the correct child restraint for your child's age and size, even with airbags. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal airbag. See your vehicle Owner's Manual and the child safety seat instructions for more safety information. **2** Read the vehicle Owner's Manual for important feature limitations and information. **3** Properly equipped Chevrolet vehicles are eligible for 1 month of Connected Services trial and OnStar Safety & Security coverage starting at trial activation date; includes emergency and navigation services, the Remote Access Plan, plus a 3 GB or 1-month (whichever comes first) data plan trial. Services subject to user terms and limitations; capabilities vary by model and/or vehicle configuration; visit onstar.ca for details. Data plans offered by AT&T or its local service provider. Availability subject to change. GM Canada may modify, extend or terminate offers for any reason, in whole or in part, at any time, without notice. Requires vehicle electrical system (including battery), wireless service and GPS satellite signal to be available and operating for features to function properly. [†] All-season tires may not satisfy winter tire requirements in all regions of the country. Tires specifically designed for severe winter conditions and marked with the "winter tire" symbol  may be required during certain months or in certain regions. Contact your Provincial, Municipal or local road authority for information regarding which tires are required in your particular area.

Includes Forward Collision Alert and Following Distance Indicator, Automatic Emergency Braking, Front Pedestrian Braking, Lane Keep Assist with Lane Departure Warning and IntelliBeam automatic high beam on/off (requires available Driver Confidence Package on LT)		

¹ Read the vehicle Owner's Manual for important feature limitations and information. ² Chevrolet Infotainment System functionality varies by model. Full functionality requires compatible Bluetooth and smartphone, and USB connectivity for some devices. Data plan rates may apply. ³ Visit my.gm.ca/Chevrolet/en/learnAbout/bluetooth for more information. Full Bluetooth feature functionality varies by device, model and/or vehicle configuration, and software version. ⁴ Vehicle user interface is a product of Apple and its terms and privacy statements apply. Requires compatible iPhone and data plan rates apply. ⁵ Vehicle user interface is a product of Google and its terms and privacy statements apply. Requires the Android Auto app on Google Play and an Android compatible smartphone running Android 5.0 or higher. Data plan rates apply. ⁶ Not compatible with all devices. ⁷ The system wirelessly charges one compatible mobile device. Some devices require an adaptor or back cover. See myChevrolet.ca for more information. ⁸ Available in 10 Canadian provinces, 3 territories and the 48 contiguous United States. Subscription sold separately after trial period. If you decide to continue your service at the end of your trial subscription, the plan you choose will automatically renew and bill at then-current rates until you call 1-888-539-7474 to cancel. Other fees and taxes will apply. All fees and programming subject to change. See the Customer Agreement for complete terms at siriusxm.ca/terms. ⁹ Visit onstar.ca for vehicle availability, coverage maps, details and system limitations. Services and connectivity vary by model and/or vehicle configuration and conditions as well as geographical and technical restrictions. 4G LTE service available in select markets. Requires active connected vehicle services and a data plan to access the vehicle's built-in Wi-Fi Hotspot. Accessory Power must be active to use the Wi-Fi Hotspot. Data plans provided by AT&T or its local service provider. Credit card is required for purchase. ¹⁰ Limitations apply. Not transferable. Standard connectivity available to original purchaser for 10 years from the trial activation date for properly equipped vehicles. See onstar.ca for details and further plan limitations. Connected Access does not include emergency or security services. Availability of Connected Access and any of its services is dependent on compatible 4G LTE wireless networks and is also subject to change. ¹¹ Capabilities vary by model and/or vehicle configuration and service plan. Visit onstar.ca for vehicle availability. Message and data rates may apply. Requires active service, email address on file and enrollment in Vehicle Diagnostics. Not all issues will deliver alerts. On-Demand Diagnostics requires a paid service plan.

You'll also find information about 24-hour Roadside Assistance, Courtesy Transportation, Customer Assistance, GM Mobility, safety and current incentives.

Important words about this brochure. Some of the equipment shown or described throughout this brochure may be available at extra cost. We have tried to make this brochure comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colours, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this brochure and other printed materials provided at the dealership or affixed to vehicles are approximates based on design and engineering drawings,

prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of printing, please check with your Chevrolet dealer for complete details. General Motors of Canada Company reserves the right to lengthen or shorten the model year for any product, for any reason, or to start and end model years at different times. Certain vehicle features may lose their usefulness over time due to obsolescence from technological changes. Unless otherwise noted, all claims based on GM Small Car segment and the latest available competitive information. Excludes other GM vehicles.

Powertrain. Chevrolet products are equipped with engines and/or propulsion systems produced by GM Global Propulsion Systems or other suppliers to GM worldwide. The powertrain components in Chevrolet products may also be used in other GM makes and models.

Assembly. Chevrolet vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Chevrolet vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest you verify that your vehicle includes the equipment you ordered and that, if there were changes, they are acceptable to you.

Fleet orders. Some standard content and owner benefits may be modified or deleted on fleet orders. See dealer for details.

An important note about alterations and warranties. Installations or alterations to the original equipment vehicle (or chassis) as distributed by General Motors are not covered by the New Vehicle Limited Warranty. The special body company, assembler, equipment installer or upfitter is solely responsible for warranties on the body or equipment and any alterations (or any effect of the alterations) to any of the parts, components, systems or assemblies installed by GM. General Motors is not responsible for the safety or quality of design features, materials or workmanship of any alterations by such suppliers.

Trademarks. The marks appearing in this brochure including, but not limited to, General Motors, GM, Chevrolet, the Chevrolet emblem, Bolt EV and their respective logos, emblems, slogans and vehicle model names and body designs; and other marks such as Find New Roads, IntelliBeam, myChevrolet, OnStar, the OnStar emblem and StabiliTrak are trademarks of General Motors LLC, OnStar LLC and/or General Motors of Canada Company, its subsidiaries, affiliates or licensors.
